HAVING REGARD to the Statute of Politecnico di Milano;
HAVING REGARD to Directorial Decree of 3.11.1999, n.509;
HAVING REGARD to Directorial Decree of 22.10.2004, n. 270;
HAVING REGARD to the Educational Rules of University;
HAVING REGARD to the University Master's Regulation of Politecnico di Milano enacted with Rectoral Decree n. 2235 of 05.08.2013;
HAVING ACQUIRED the favourable opinion of the Academic Senate in its meeting of 18.11.2019, regarding the organization and activation of Specializing Masters, among which the Specializing Master of I Level "DESIGN FOR DEVELOPMENT ARCHITECTURE, URBAN PLANNING AND HERITAGE IN THE GLOBAL SOUTH".

HEREBY DECREES

That the "DESIGN FOR DEVELOPMENT ARCHITECTURE, URBAN PLANNING AND HERITAGE IN THE GLOBAL SOUTH" Specializing Master of I Level is set up and activated for the year 2020/2021.

ARTICLE 1 **Master features**

At the Department of Architecture and Urban Studies, the "DESIGN FOR DEVELOPMENT ARCHITECTURE, URBAN PLANNING AND HERITAGE IN THE GLOBAL SOUTH" Specializing Master of I Level is set up and activated;

The administrative seat of the Specializing Master is provided by POLIEDRA, the reference School is the School of Architecture, Urban Planning and Construction Engineering. The Head of the Specializing Master is prof. Camillo Magni. The Deputy director is professor Paola Bellaviti.

The Specializing Master Programme Commission is made up by professors of Politecnico di Milano: Gabriele Pasqui, Agostino Petrillo, Camillo Magni, Maria Cristina Giambruno, Laura Montedoro, Paola Bellaviti, Sonia Pistidda and by Francesco Chiodelli of Gran Sasso Science Institute (Aquila).

ARTICLE 2 **Educational objective and job opportunities**

The impacts of globalisation on cities and regions are creating huge socio-spatial imbalances, environmental emergencies and complex urban management problems, particularly in the regions of the Global South and in countries with emerging economies. Operating in these places requires innovative professional skills to be expressly developed to be able to face the challenges of inclusive, sustainable urban development and seize the opportunities offered by transformations to improve physical and social contexts ("make cities and human settlements inclusive, safe, resilient and sustainable" - United Nations 2030 Agenda for Sustainable Development, Goal 11). The Master's in Design for Development has been devised to meet these demands in the firm belief that the design disciplines can play a leading role in these new urbanisation processes. Indeed, there is ever growing demand from all sides for design experts capable of navigating the challenging contexts of the Global South by bringing skills and expertise that focus on the governability and quality of urban and regional development. With this in mind, the Master's programme sets out to train professionals with an international outlook capable of tackling the most difficult challenges posed by contemporary urban

development with skill and creativity, based on an approach that blends research, design and innovation. These new professionals will be offered a broad overview of design at a variety of scales, in which architecture, planning and heritage protection are all aspects of the same approach to design which aims to develop effective strategies for defending and developing the regions in which they operate in environmental and social terms. The aim of the programme is to produce professionals/consultants in the area of development-related spatial issues who can seek employment at the supranational, national or local scale, whether in the public, private or third sector.

The Master's programme offers a high level of technical specialisation for students wishing to find employment with: - multilateral organisations, and international agencies and networks which promote programmes for sustainable urban development at the global scale (for example UN- Habitat, UNESCO, the FAO, UNICEF, the Cities Alliance, the World Bank, the World Urban Campaign, etc.); - institutions, research centres, companies, foundations and other philanthropic organisations which promote/fund/develop programmes and partnerships between national governments and local administrative bodies in countries of the Global South (for example Agenzia Italiana per la Cooperazione allo Sviluppo, Fondazione Eni Enrico Mattei; Fondazione Cariplo, Fondazione Lerici, the Aga Khan Foundation, the International Institute for Environment and Development, Istituto Oikos, etc.); - non-governmental organisations (NGOs) operating in field of international cooperation, involved in projects dedicated to the integrated development of local areas and communities (for example Emergency, Coopi, Oxfam, ActionAid, Africa 70, Cesvi, Cospe, Celim, etc.); - non-profit associations, networks and professional studios dedicated to promoting design for spatial and environmental justice and the right to housing (for example Architecture Sans Frontières International and its respective national branches, Ingegneri Senza Frontiere, Architecture for Humanity, Emergency Architecture and Human Rights, Urban Planning for Democracy, Urban Think Thank, TAMassociati, etc.). In order to maximise such opportunities, participants in the Master's programme will complete an internship at organisations that satisfy these profiles.

The course will be held in English.

ARTICLE 3

Content and organization of training activities

The Specializing Master will start in **September 2020** and will end at end in **September 2021**.

The Master's programme is promoted by DASTU (the Politecnico's Department of Architecture and Urban Studies), which is acknowledged as one of the most prestigious research centres in the field of architecture and urban planning in Italy and abroad. The programme constitutes one of the Department's actions in the field of international research and higher education dedicated to inclusive, sustainable urban development in the cities and regions of the Global South. The syllabus will be taught by a team of DASTU teachers and researchers specialising in the themes and fields of application of the course, with the participation of prestigious teachers from other universities and world-renowned experts from research centres, multilateral organisations, and national and international NGOs operating in the contexts of the Global South. The Master's programme takes an original approach to teaching and learning, founded on: a) tight integration of theory and practical application through a learning-by-doing approach; b) a global perspective on understanding and interpreting urban phenomena; c) a specific design-oriented approach at the various scales, integrating architecture, planning and heritage protection; d) ample space dedicated to practical experience "on the ground" through a five- week international design workshop; e) an internship at an organisation operating in the Global South, designed to offer a potential route into employment in the field.

The Master's programme has a duration of 1,500 hours in total, consisting of lectures, exercises, visits, workshops and individual study, and an internship of 300 hours. The Master's programme is organised into five different modules: **_MODULE A _THEORY AND TOOLS / 12 ECTS** **_MODULE B _DESIGN WORKSHOPS / 12 ECTS** **_MODULE C _INTERNATIONAL DESIGN WORKSHOP / 16 ECTS** **_MODULE D_ INTERNSHIP / 12 ECTS** **_MODULE E_ FINAL THESIS / 8 ECTS**
